#RCR ARQUITECTES

RAFAEL ARANDA

RA

"Design the future, shape the world."

Rafael Aranda is a renowned Catalan architect, known for being the precursor of a type of architecture that is local and rooted to his land, but with a global and universal language. Originally from Olot, Girona, he can be considered one of the best architects in the world and of our times. In fact, in 2017, Aranda managed to win one of the prestigious Pritzker Prize, known as the Nobel Prize of architecture. A recognition to his works, which contemplate the improvement of several of the public and private spaces that surround him.

Among his works of reference are different projects of domestic and commercial origin. Some of his most important works are the Bell Lloc Winery in Palamós, the La Lira Theater in Girona or the Tossols-Basil Athletics Track in Olot.

imperfection is authenticity

Imperfection is Authenticity honors the beauty found in natural flaws, irregular patterns, and raw textures. Whether it's the grain of real wood, the crackle of aged stone, or the hand-touched finish of crafted surfaces—each detail tells a story. This collection embraces uniqueness, creating spaces that feel genuine, grounded, and beautifully human.

#RCR ARQUITECTES

CARME PIGEM

CP

“Where imagination meets reality.”

Famous Catalan architect born in Olot, who together with Rafael Aranda and Ramon Vilalta is part of the architectural firm RCR Arquitectes. The Girona-born Carme Pigem has always worked with a local architecture, creating, together with her colleagues, a new way of conceiving spaces. Among the most interesting works in which she has worked with Aranda and Vilalta are the Petit Comte de Besalú nursery and the Soulages de Rodès museum. Her life and work is rooted in her roots.

She has also been a professor of architectural projects at the Escuela Técnica Superior de Arquitectura de Barcelona and at the Escuela Técnica Superior de Arquitectura del Vallés. Undoubtedly, a key reference for our interior design studio in Barcelona.

#RCR ARQUITECTES

RAMON VILALTA

RV

"Beyond blueprints. a world of artistry."

The third and last component of RCR Arquitectes. Specializing in landscape architecture, Ramón Vilalta is for us one of the 10 best architects in the world, along with his colleagues Aranda and Pigem. Much of his professional career has been devoted to developing different architectural projects with a deep focus and local influence. As a result, the vast majority of his built work is located in Europe, particularly in Spain.

Most of his works are made to socially stimulate the appreciation of architecture and landscape. Although in them we also find distinguishing features of Catalan art and culture.

TECHNICAL SPECIFICATIONS

Sr.No.	Property as per IS : 2046 - 1995	Property Attribute	Unit Min / Mix	Requirement	Conforms
1	Thickness	mm	-	1.0mm + 10 %	✓
2	Resistance to surface wear (cycles)	Wear Resistance	Revolutions (Min)	350	✓
3	Resistance to immersion in boiling water (%)	Mass increase Thickness increase	% Max % Max	10 12	✓
4	Resistance to dry heat at 180 deg.C	Appearance	-	Should pass test	✓
5	Dimension stability at Elevated temperature	Dimensional Change	% Max- Longitudinal % Max- (Transverse)	0.6 1.0	✓
6	Resistance to standing	-	-	Should pass test	✓
7	Resistance to Cigarette burns	Appearance	-	Should pass test	✓
8	Resistance to steam	Appearance	-	Should pass test	✓
9	Resistance to cracking	Appearance	-	Should pass test	✓
10	Resistance to scratching	Load	N (Min.)	2 N (Min)	✓
11	Resistance to Impact by small diameter ball	Spring Force	N
